

**Annwyl Rhun ab Iorwerth A.M.**

**See enclosed information re our intended protests against RWE Road across the Seven Hills of Mawr and the intended Mynydd y Gwair Windfarm. Plaid Cymru to date has made no real attempt to thwart all this and the profits of Capitalist Corporate Economic Raiders 'New Conquistadores' and of an 'Old Conquistador' Duke of Somerset whose family put in place by Charles II has been ripping of Morgannwg and Gwent in many ways in rents on land use and properties not least in Abertawe for many Centuries passed.**

**For further Info. See Tarian Glyndwr and Yr Adfeddiant Mawr blogs.**

**It is not too late for Plaid Cymru to show an active radical interest, particularly to the issue of the RWE Turbine Mountain Road Construction and Turbine Transport Public Road use from Swansea Docks and Chepstow, via Penlliw to the Bolgoed Entry. Your councillors might wish to pay attention and become active here?**

**I am bemused that your so concerned about a pretty minor modern day 'Marcher Lord' ripping of people of Ynys Mon but say nothing about an 'Old Conquistadore' ripping us off big time for near five Centuries. Same re Jill Ifans so concerned about Palestinian land being ripped off by Israelis but dead quiet about present day Old and New Conquistadores taking our land.**

**If you call Plaid Cymru a Nationalist Party I consider that means you act as the National Defenders of Cymru and our Communities. As for WAG and those who remained silent on TAN 8 Terrorism upon Cymru, this is hardly much different from English Kings from 1282 Conquest to 1536 and beyond handing over our Land to their supporters for profit and privilege.**

**Then there are the Crown Estates, all the Coast and now Retail Parks as in Abertawe, does anyone know how much land they possess and where it is, time some work was done exploring all this and then do something about it, big time and if not WAG then the modern day 'People of the Pitchfork must. Then where does Plaid Cymru stand or maybe rather with us lay before RWE Lorries at the Bolgoed Quarry Entry to the Seven Hills.**

**Yn Fyddlon.**

# RWE ROAD ACROSS THE SEVEN HILLS

## STOP THE ROAD – STOP THE MYG WIND FARM

JMS

### There are six concerns here:

1. The Wind Farm but note, this has been challenged by SOCME for number of years gone before Swansea Council twice, voted against once but on appeal got a 'Yes' from the Council. Betime second appeal REW had bribed a number of local groups as OSPREYS and other. So, essentially the MYG WF is on, fin? However, stop the RWE Road and we stop the WF, thus focus here.

2. The RWE Construction Road across the Seven Hills, this is what the present Inquiry is about and I have no doubt that even if Inquiry goes against, then WAG can turn down and give the go ahead still. There is no way RWE will allow anything to stop this road and waste years and money advancing an Alternative Route and so I believe this Inquiry break will allow RWE to go around with further bribes to the 'Graziers' and do keep in mind that the inquiry is about getting Land off the 'Grazier' in a land swap coupled with land exchange. Thus note the 'Graziers' via the inquiry are advancing their interests and that what I heard by chance is I am pretty clear where their interests are ££££££ and are just likely to sell out as the farmers did re Mynydd y Betws. Please note Issues other than 'Graziers' interests concerning this road, other than devastating the Landscape and descrating ancient and Medieval archaeological setting. Both issues for us to be concerned with but there is another issue that is off great concern which I have seen no focus on or protest on, let alone being raised at the Inquiry and it is this and as important and could be a stregnth to our campaigning:

This is the use of the roads from Motor Way and later Swansea Docks and Chepstow to the 'Bolgoed Quarry' RWE Road entrance via Penlliw. Now this is a narrow road and will cause House foundation problems as heavy vechiles pass by for up to five years? Not least re the three small private housing developments near 'Bolgoed Quarry' entrance. What are local Community Councils and Councillors doing about this? This is in itself a major matter to suss out and do something about, maybe Sian Ciach of People First could help here any Plaid Cymru Councillors in these locations to alert? If no one found to focus here, maybe at least an 'Open Letter' to local Press and Councillors asap. Anyone up to writing such fast and advising attendance of Inquiry in the Summer?

Can we do?  
Such as  
'Open Letter'

### Further re the Road and this concerns campaigning:

Very important there is a major protest at RWE start at 'Bolgoed Quarry' entrance, got to be big with also setting up of a permanent Protest Picket (Ysbryd Beca Bolgoed Barricade/Blockade), even if only token rota protest presense, if possible and that will take organisation. Note then first stage of the RWE Road is via Bolgoed Uchaf farm up towards Gopa Hill via Farm and Common Land (needs sussing as does local foot paths, re protest potential). On Gopa Hill it is RWE intention to establih a Road Construction Cammand Post, it is thus on Gopa Hill we must seriously consider establish a 'Camp Ysbryd Beca'. (use history of Beca attack on the Bolgoed Tollgate, I am orgnising a small commemorative Field Trip re this but also as a recon of locations mentioned above, opportunity for key activist organisers to meet to discuss strategy and tactics both long and short term. I shall take aboard FT.

3: Further to the above of great and possibly main concern is the Land and Liberty Issue and a campaign to get Beaufort out and off this land, for it to be communalised – Put in Cymric Ownership. It Is I our interest to use this campaign as one to launch struggle against all old and new Conquistadores and stop Cheque Book Conquest and restore our National Sovereignty to this land.

**Addition: Hawliau WNRM are aboard with this campaigning and are committing themselves to action and activity over Llanelli Eisteddfod Week which we need to fully support. If they are to plan a rally based on MyG, I advise checking out with Ioan Richards/SOCME if they are alright with it as he give us great grief with MyB and publically undermined our efforts as he had no time for MyB Farmers who 'Sold Out'. He could of course be let down by MyG 'Graziers' and same re MyB give up the Ghost and surrender before the Fat Lady has sung?**

**If 'Hawliau' are to organise a Rally on Mynydd Y Gwair, here are the options of location as possibly deirmined by parking and easy access to Mynydd y Gwair 'Trig' as possible Rally site, access gained from road towards Castell Penlleagaer. Alternatively, along to Pentwynd Mawr along St illtuds Way for Rally which overlooks MyG or gain access from here to MyG. Other than this via Felindre head up Mountain to Mynydd Pysgodlyn and close by Penlle Pebyll for rally, good historical and location reasons for this site. Look West and we are looking at direction of the RWE Road (NB: it comes out on to the Mountain Road here (near to Cattle Grid), see RWE doc I have sent. It will occupy this road for some distance, does this mean the Mountain Road to Garn Swllt is to be blocked, another big issue). Look to the East and you will be looking in direction of Mynydd y Gwair and beyond that you can actually see Mynydd y Betws Wind Farm on a clear day. It will be quicker to get to Mynydd Pysgodlyn via Felindre than the other way noted above to MyG. Of course there is alternative of holding a rally at Castell Penlleagaer as one can see both present MyB WF plus MyG intended WF site, this will give a good view of the scale of the Two WF's as a rural Industrial Estate Both these locations have good side of road parking possibilities.**

**Whatever, if good weather over the Aug Bank Holiday I am organising Agit - Prop Poster/Placard activity across the Seven Hills based out off area of the Mynydd Pysgodlyn/Penlle Pebyll area. This allows good access from there across all locations concerned and will give me opportunity to focus on the Archaeological sites for a few days. That will be my lot untill the 2015 Campaigning season but hopefully by then we will have won over much more support so it can be so organised to organise continus 'Guerrilla' protest activity. Main protest activity now is to fast get some posters and Road side Placards up all over, not least on Main roads. These and Mawr are pathetically devoid of such and slogans compared to many other locations in Cymru/Wales as around Brechfa and in Canol Cymru.**

**I and a few others are also busy over in Gwent to rise up the Red Pitchfork there and I have to consider ways to reactivate campaigning re Pen Y Cymoed and on the Vyrnwy Estate since on the former BC Russell copped out and BC Adam is to much of a wimp to be active on land occupied by Severn Trent not far from where he lives. For the life of me, I do not know why Nationalists give these Posuers and Paraders the time of day. Surely not because thy can bang Drums and make good Painters and Decorators. They are nought but fb Fusiliers and makes me wonder why are we few bloody bothered and make time and financial sacrifices. Wise up they are a bad example to any younger generation youth who might want to become patriots as they give no real radical Leadersip what so ever and that is the truth of it. They are more likely to undermine a great deal as they have done already in making the 'White Eagle' their tame pet BC Budgie apart from devaluing Cayo, Coslett and now Glyn.**

# RWE MyG TURBINE ROAD

- 1: ROAD ACROSS THE SEVEN HILLS OF MAWR**  
from 'Bolgoed Quarry' A48 Entry to Gopa Hill,  
then on to Mynydd Pysgodlyn to MyG WF Site.
- 2: Turbine Transport wil use roads from Swansea**
